FRIDAY ... JULY 23, 1869 NEW MAIL ROUTE WANTED.

Our numerous subscribers in Whig Valley, Holt county, complain that the SENTINEL does not reach them till a week or ten days after it is published. This delay is owing to the fact that there is no mail route from Oregon to Graham, Nodaway county, at which office our patrons in Whig Valley receive the paper. Every Friday afternoon the SENTINEL is regularly sent to the train going south, at Forest, and it must get to St. Joseph that night. From there they have to go to Savannah, from there to Fillmore, and from there to Graham, once a week. It does not require much penetration to see how the delay above to Fillmore after the mail has left for Graham. Graham Post-Office is only fifteen miles from Oregon-the road teading over a beautiful rolling prairie. Whig Valley ferry, where a new post-office ought to be established, and near where most of our subscribers reside, is only 114 miles from Oregon. Now we propose to give the Postmaster General an opportunity, through our Congressman, to re-establish the old mail Nodaway county. Whig Valley and Graham would be right on the line. Let it be a try-weekly mail, and let our energetic townsman, Mr. Peter Trissal. who is running his omnibus line from the Railroad depot to this place, have the contract of carrying the mail from Valley and Graham, and the true reme dy for the above grumbling is found. Mr. Trissal has the stages and teams on hand to make the run. Let the Post-Office Department give him the contract without delay, and let either of our friends, C. F. Storm or John Swope, the ferryman at Whig Valley, be appointed postmaster at that locality.

THE 7th OF AUGUST.

The total eclipse of the sun will occur on the 7th of August. It will be visible here as almost a total eclipse. There has been no total eclipse of the sun since 1834, and there will be no more exhibitions of the kind traveling over the world again during the present century. Under the auspices of the government, accomplished astronomers, with excellent instruments, are now coming west, on the line of this shadowy march, to make full and careful observations, and we hear of one party at Washington in readiness to go to Burlington or Dubuke for this purpose. The moon's shadow first reaches this mundane sphere in Siberia, at 3:37, Washington crosses Behring's Strait at 4:15, and on through Alaska and the British posessions, reaching the United States in longitude 31 deg. west of Washington. It passes from the northwest to the southeast, from Alaska to Wilmington, N. C. We simply notice these facts that our readers will be prepared to observe the greatest astronomical event of the age. Smoked glass is the ordinary ining to view the celipse.

FROM AN OCCASIONAL CORRES-PONDENT,

CHICAGO, July 12. find myself the recipient of a copy of to St. Joseph big muddy is at its old tricks of making its banks cave in. On Saturday about 200 ties belonging to the St. Joseph and Denver Railroad were car-EDITOR HOLT COUNTY SENTINEL: I and

of the passing events in one great "Garden City" and fact of all innext fact of all innex den City," and first of all I must tell you how the time-honored Independence Day passed off with us. Well, I am sorry to

LETTER FROM MOUND CITY.

occasionally, and to Oregon his special spartments. It is designed for use as a attention. Your paper is the county pa- church in the sparsely settled portions per, and we believe it should be devoted of Kansas. alike to the interests of every part of this excellent portion of north-west Missouri-Holt county; hence we hope to cable. The alternating of rain and sunsee our new editor as much devoted to

one portion as another. Mound City, as all are aware, is cen encircling the great River Bottom. In point of trade, it receives more than any complained of happens. Our paper gets other town in the county in proportion to population. To prove this, we will state that the sales of one of the merchants here have been from \$100 to \$175 per day, during the Spring months. This is not equalled by the largest house in Oregon, as I am informed by one of the proprietors. If then the place is so important a commercial point, why do not men who have means give us a flouring mill? Will such a mill pay? is asked. We answer only by saying that our route between Oregon and Maryville, citizens go from thirteen to thirty miles

for milling, and that we are in the midst of a rich agricultural district which has trebled its population in less than two Oregon to Maryville, touching at Whig has been started without meeting with good success.

The grounds are now being got ready for the reception of a two story brick block, which in turn will attract something else. Two men are on the ground looking for lots for wagon shops. Mr. John Hershberger, of your place, has his barness shop in successful operation, for his good work is drawing him custom. He tells us that a shoemaker cam find room, and work-all he wishes, under the same roof. With all these, does not Mound City deserve the county seat? Will it not be the county seat in five years? We answer yes, for the people East, West, North and South of the central part of the county say it shall be. Hence we say to any man or men who will put up a shoe shop, wagon shop, factory, mill, carding machine, or any other business house, you will make it pay better than in any other part of the county. He who now come will be in season for breakfast, when lots are cheap; he who waits ninety days will pay 331 per cent, more for loss than they can now be had for, and he who waits time, in latitude 58 deg. north, and long-and pay 100 per cent. more for lots than one year will be in at a very late supper. now. You tell us we are not on the Railroad. Neither are we under water

> with a view of investing in Mound City Here is a question for all to ponder Will a wise Railroad Company expend \$100,0000 annually to keep a road bed in repair, for the sake of running on a the bluffs above high water mark?

OFR CHICAGO LETTER.

MUND CITY, July 17.

MR. EDITOR: I have written an occasional line for your paper, when edited by one of your predecessors, and would like you to give room for this, it not tropassing too much upon your time and space.

We desire to speak a word for Mound City—its location and prospects. One of your predecessors has given Bigelow, Craig, Corning and Forest City, notices occasionally, and to Orgon his special

The weather, or that portion of it ap pointed to Chicago, is perfectly inexplishine is wonderfully regular, but the rain holds sway the longest part of the time. During the first few days of July, trally located at the base of the Bluffs it looked very much as if the rainy season was over, but since that time we have been sadly disappointed.

For a long time we have had a very unsatifactory arrangement to keep the correct time. The man at the top of our court house announces the hours by means of a bell; but it necessarily is far from exact. Every jeweler has his own

made.

made.

In the absence of more general news, I wish to tell your readers something about one of our large commercial establishments. The house of Messrs. Bradner, Smith & Co., at 133 South Water street is now the largest paper establishment in the West. It is peculiarly satisfactory to those dealing with such a house to know that their orders about one of our large commercial essuch a house to know that their orders can always be filled. This firm have six large mills constantly employed in manufacturing all kinds of print, book and wrapping paper. To enjoy an ocular feast I visited these warerooms and was well repaid by the view. Besides the tons of print and book papers, there are huge piles of manilla, fruit, drug and tissue papers, rooting felt, press board straw board, card board, all kinds of fine papers and twines of every conceivable make. Nothing is wanted to make this stock complete.

We are now having a season of pan tomime, miustrelsy, gymnastics, etc., at the theatres. It is universally hopen that the new season will commence with a large sprinkling of the legitimate drama. Our home artists and painters have left us for their accustomed summer tours. These hard working persons gather large stores of sketches and reand mud like Craig and Blgelow. Al. turn to beautify their studios and private parlors.

ready Bigelow men are looking around Our streets and public places do not present anything like a deserted appeaance, but there are hundreds of our citizens out of town for the summer.

There appears to be something like a mania for suicides in this city. We have had two attempts of mis-guided men to put an end to themselves within the past few days, for trivial causes.

TERRIBLE ACCIDENT ON THE

A Scoundrel at Large.

The Nebraska City News gives the fol-lowing account of the proceedings of a scoundrel named Harris, in Holt coun-

On Wednesday night last, a Mr. Meyers On Wednesday night last, a Mr. Moyers, a citizen of Holt county, Missouri, once a member of the Nebraska Legislature from Richardson county, arrived in the city, in quest of a villain named Harris, who had allured his daughter from her home and married her, leaving at Osboth, Mo., his first wife and only child. The particulars we learn from Mr. Meyers:

About three or four months since he employed Harris as a clerk in his store in Holt county. Mo. reposing in him

in Holt county, Mo., reposing in him the utmost confidence; by his suavity of manner and accomplishments be endeared himself to the young lady, and pro-posed matrimony to her; her father couregulator, and no two of them agree. It is now proposed to connect the Dearborn Observatory with the Court House by means of a telegraph wire, and have the exact time.

We get full reports of the doings of the Chicago commercial party now arrived at Sacramento. However gay and festive they may be, there is every reason to look for grand results from their son the read they were and they were the fall they such they should you discard it? Judges, usually considered men of talent, have seed they side does to in their adea and to set in their adea and to trebled its population in less than two years, and is still rapidly increasing. A mill then will pay; and if a mill will pay, so will a woolen factory and card-ling machine. In fact, no new enterprise has been started without meeting with

> nan who first took the claim where Col. Shambaugh's farm now is.

Read the SENTINEL carefully, and get your neighbor to subscribe.
